Running the Cook Scan CSV file:

Open BI

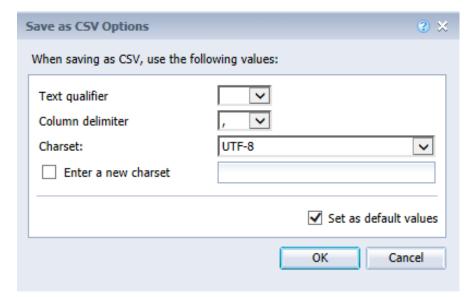

- Open report titled 'SCN01-consignment Cook Scan'
- Enter prompt as required
 - Select Customer subsidiary
 - Enter Customer Number or Search example CUK_230
 - o Select SBU code
 - o Enter your rep number
 - If the information you put into the fields does not work the use the search option.

- Once you have entered the fields click 'OK'
- The file should now have the information requested:
- On the tool bar, select option to export the data as 'CSV archive'

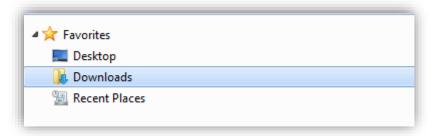

- The table below will appear, ensure that the 'text qualifier' box is empty (like the below)

- Select ok
 - o Below screen will appear
 - Click Save

- DO NOT CLICK OPEN <u>as you will open the file in excel version and the rep will not be able to upload to Cook Scan app.</u>
- Instead open 'my computer', & select 'downloads' folder

- The file will transfer across in ZIP format, you must double click the ZIP version and it will then open as a .csv file (see picture)

and drag the file onto the email
